

#### 4.3.1 Institution frequently updates its IT facilities including Wi-Fi

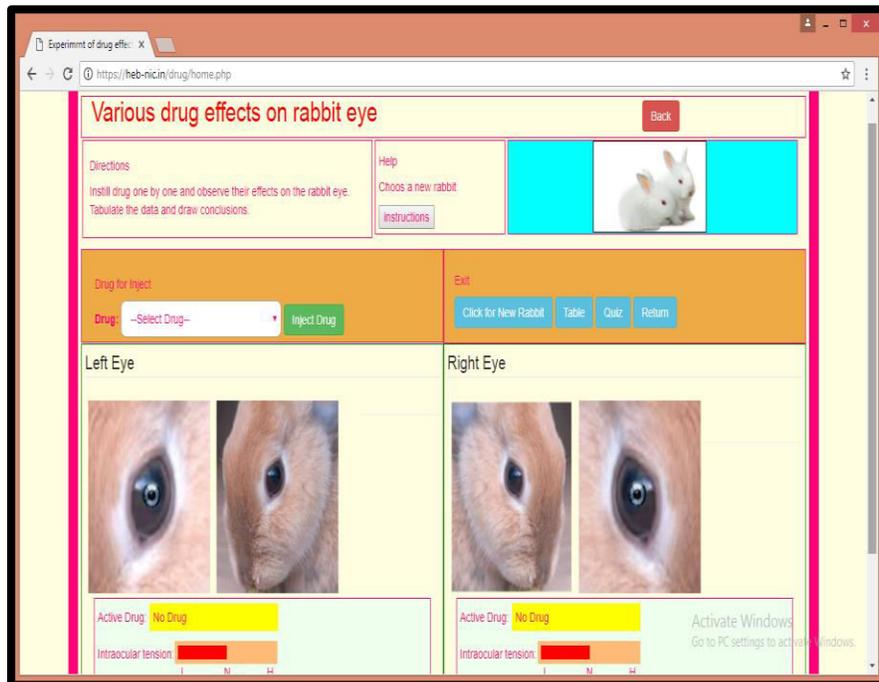

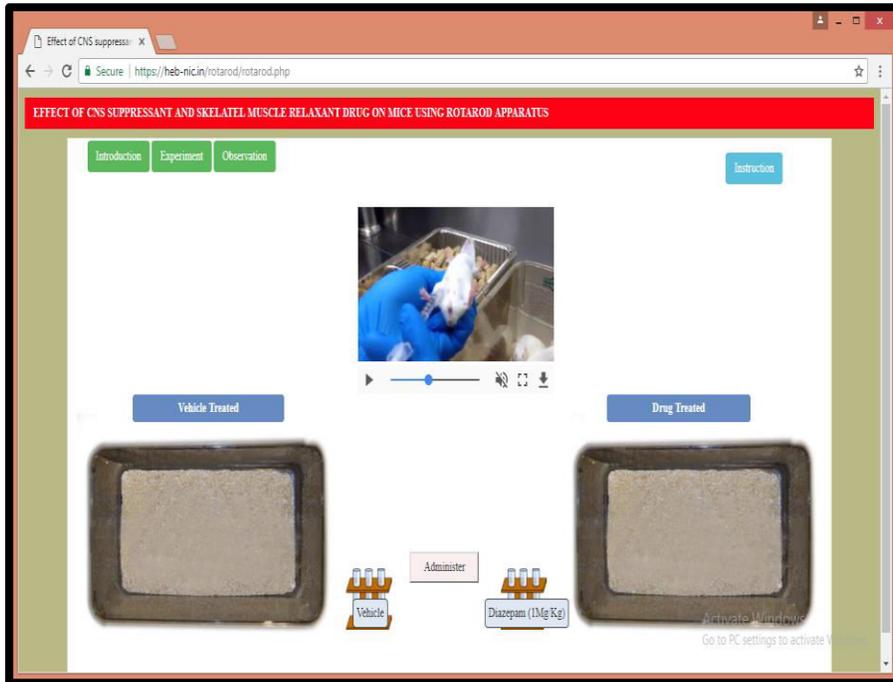

Computer room

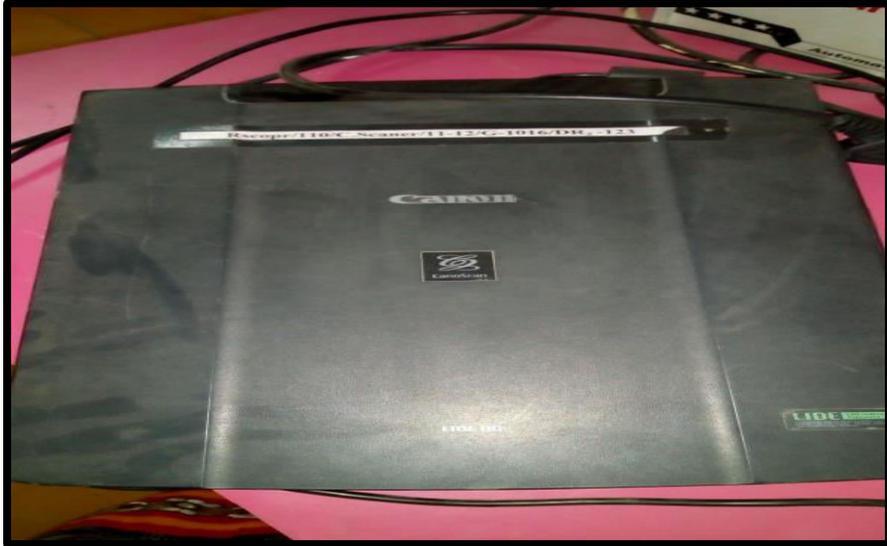

Smart Boards and internet connection for power point presentation

## Computers with software

Computer with scanner

Computers with printer

Reprographic facility

Video conferencing facility

The image shows a screenshot of a presentation slide titled "Regression model". The slide content is as follows:

- ▶ **Regression model**
- ▶ **Linear or first order regression model**
- ▶ Method for determining the parameters of a linear system. The empirical model relating the response variable to the independent variables are described by the following equation:  
$$Y = \beta_0 + \beta_1 X_1 + \beta_2 X_2 + \dots + \beta_n X_n$$
- ▶ Y - the response,  
X<sub>1</sub> and X<sub>2</sub> - the two independent variables,  
β<sub>0</sub> - the intercept of the plane,  
β<sub>1</sub> and β<sub>2</sub> - partial regression coefficients,

Below the slide, there is a video inset showing a woman in a purple sari presenting in front of a whiteboard. To the right of the video, there are two smaller images: one showing a group of people sitting in a room, and another showing a larger audience in a lecture hall.
